

Chemistry Grade 12

WEEK 1

- Solid States
- Classification of Drugs
- Bio molecules

WEEK 2

- P block Elements
- D and F Block Elements
- Properties of All Elements

WEEK 3

- Surface Chemistry
- Adsorption
- Classification of Colloids

WEEK 4

- General Principles of Metallurgy
- Thermodynamic Principles of Metallurgy
- Extraction of Metals from Ores

WEEK 5

- Introduction of Organic Chemistry
- General Organic Chemistry
- Hydrocarbons

WEEK 6

- Aldehydes and Ketones
- Carboxylic Acids
- Reaction Mechanism

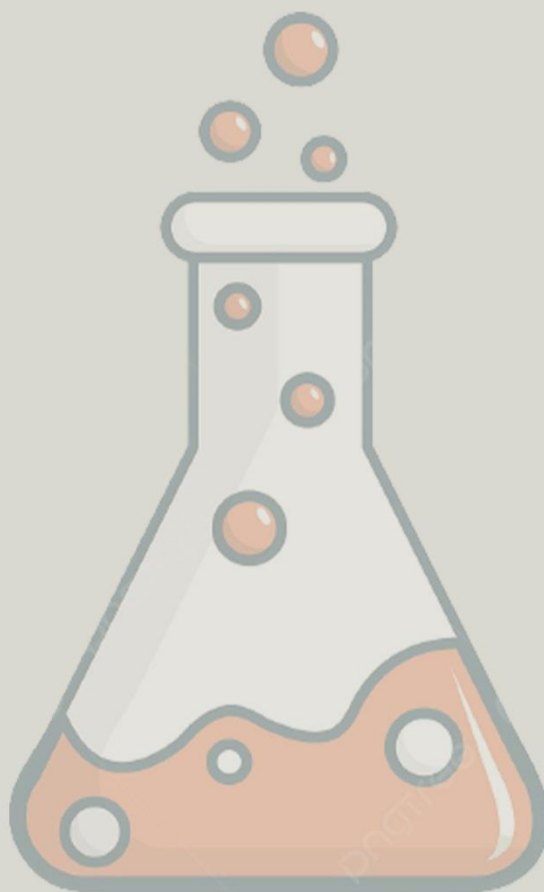

Chemistry Grade 12

WEEK 7

- Amines
- Diazonium Salts
- Cyanides and Isocyanides

WEEK 8

- Revision of Organic Chemistry
- Name Reactions and Mechanisms (Organic Chemistry)
